

# ST. LOUIS AOSA

A registered chapter of the American Orff-Schulwerk Association

---

September 10, 2009

To Whom It May Concern:

The St. Louis American Orff Schulwerk Association (AOSA) is a professional organization dedicated to providing quality professional development opportunities to music teachers in St. Louis and the surrounding areas. Thanks to a generous donation by MMB Music, St. Louis AOSA has acquired 15 new music instruments which will be auctioned through sealed bids to interested individuals, schools, and districts. All proceeds raised from the auction will be used to host the 2012 National AOSA Convention which will be held in St. Louis.

The winning bids will be contacted on March 31, 2010. The winning bidder may choose to pay for and pick up the instrument on April 17, 2010 OR they may choose to pay for and pick up the instrument on August 9, 2010. This will allow school districts to use their current budget OR next year's budget to purchase instruments. To place a bid, fill out the attached bid form and submit to: Sheila Baer, ATTN: St. Louis AOSA Instrument Auction, 5297 St. Louis Rock Rd, Villa Ridge, MO 63089. Bids will be updated on a monthly basis through our website: [www.stlaosa.org](http://www.stlaosa.org) All instruments have a minimum bid value. If you have any questions about the auction, please e-mail: [president@stlaosa.org](mailto:president@stlaosa.org) Thank you for supporting music teachers, students, and St. Louis AOSA with your bid!

Sincerely,  
Bridget Zimmermann  
St. Louis AOSA President

# AOSA Instrument Auction

Mountain Rhythm  
10" Djembe Cajon (medium size)  
—\$179 value

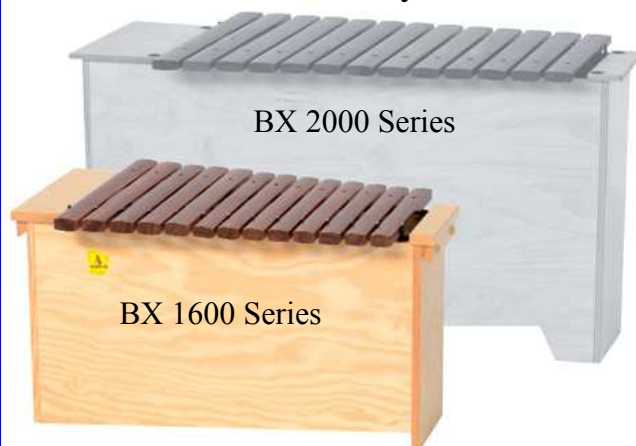

Studio 49 2000 Series  
Soprano Xylophone—**2 available**  
Resonance Chamber only—\$207 value

Studio 49 2000 Series  
Soprano Metallophone—**2 available**  
Resonance Chamber only—\$207 value

Studio 49 1600 Series  
Bass Xylophone—  
Resonance Chamber only—\$475 value

Studio 49 2000 Series  
Alto Metallophone—  
Resonance Chamber only—\$378 value

*The 1600 series of instruments are for budget conscious consumers. All resonator boxes are solid pine with flexible pins, have multiple resonance chambers for rich sound quality and fabric-coated tubing under the bars for lasting durability. The 1600 series BX has the same range as the 2000 series; however, the bars are not as wide so the instrument is smaller.*
